Mayor, City of Newark
City Hall
Newark, New Jersey

RE: Annual Report 1978

Dear Sir:

I herewith respectfully submit the Annual Report of the activities of the Fire Department for the year 1978.

Fire remains a very serious problem in our City, and in 1978 46 people lost their lives in fires. Most of this tragic loss could have been prevented if the public apathy towards fire could be overcome and people had sufficient warning when fire struck.

With these two worthy objectives in mind, two of the most positive and progressive measures in the history of the Newark Fire Department were developed:

One, a "Fire Education Guide Lines" which was under way for more than two years, was finalized and approved by the Fire Department and the Board of Education. It is expected that this program will soon be in operation throughout the schools in Newark. This progressive and important step, which will teach the elements of Fire Prevention in the home, should have a great influence in the reduction of fires.

The other, a Smoke Detector Ordinance, mandating by May 1, of 1979, at least one smoke detector in each dwelling unit, was unanimously enacted into law by the City Council and signed by the Mayor. This early warning in case of fire has the potential for dramatically reducing the loss of life from fire.

The aforementioned Fire Prevention and Life Saving measures will be remembered as two of the most positive, progressive and significant steps ever taken to protect the lives of our citizens.

RECOMMENDATIONS

- * Strong enforcement and follow-up of the Fire Education Guide Lines and Smoke Detector Ordinance.
- * An on-going program of cleaning and re-lining water mains.
- * Resumption of the temporarily suspended apparatus replacement program.

Kenneth A. Gibson
Mayor

The Honorable Kenneth A. Gibson Page 2

March 1, 1979

Annual Report 1978, Continued.

* Resumption of the temporarily suspended fire station rehabilitation program.

* Acquisition of the services of a fire protection engineer to provide technical assistance to the Fire Prevention Division, especially in the area of enforcement of the Fire Protection Sub-Code.

* Continuation of the activities of the Citizens' Advisory Committee, whose members act as liaison between the citizens of the city and the members of the Fire Department.

* * * * *

I heartily commend Fire Chief James P. O'Beirne, all officers and men under his command and members of the Administrative Staff for their efficient and dedicated service and attention to duty during the year.

To the Chaplains and Department Surgeons, we owe a debt of gratitude for their outstanding efforts in administering to the needs of the men.

On behalf of the members of the Fire Department, I extend to you, Mr. Mayor, to the members of the Municipal Council, and to the Business Administrator, our sincere appreciation for your interest and cooperation in helping us solve some of our problems.

Respectfully yours,

JOHN P. CAUFIELD,
Director, Fire Department

Hon. John P. Caufield, Director
Newark Fire Department
Newark, New Jersey

Dear Sir:

The United States has by far the worst fire record of any of the world's industrialized nations. It is exceptionally high in the number of deaths, injuries and property loss from the three million fires which plague our Country each year. In addition to the damage to the general population, Firefighters face even greater danger themselves in the most hazardous occupation in the United States.

Sadly enough, residential fires, most of which could have been easily prevented, account for the majority of fatalities and the groups most susceptible to the threat of fires are children, the elderly, and the poor. The areas which are heavily populated by low income residents exhibit a higher incidence of fire than other neighborhoods.

Arson is fast becoming the leading cause of fire across the Country and has been estimated as high as 50% in urban centers such as Newark.

The most striking aspect of the fire problem is public indifference. Citizens rely on the Fire Department to suppress fire without accepting the responsibility for causing it--until it is too late. The City of Newark reflects the rest of the Nation in its patterns of total fires, property loss, false alarms, incendiary fires, and fire related deaths and injuries. Although the City provides adequate fire protection, the citizens must accept to a greater degree than heretofore the responsibility for fire prevention.

Positive measures which may assist in reducing the fire problems in Newark are:

1. The Smoke Detector Ordinance now in effect, requiring detectors in all dwellings.
2. The proposed school fire prevention education program which will be mandatory at all grade levels. This should produce a new generation of Americans more knowledgeable about living safely with it.
3. The implementation of a "bounty system" with \$50,000.00 to be provided for offering rewards to informants giving leads which cause the arrest and conviction of arsonists.

Page Two

4. Recognition by the F.B.I. of Arson as a Type I crime (a felony offense).

5. Strict enforcement of the New Jersey State Construction and Fire Prevention Codes.

In the United States today, there is a prevailing movement to reduce the cost of government services. Sizeable future reductions in personnel would impact on the ability to provide adequate fire protection. Innovative measures would have to be studied and evaluated to increase members' productivity and to ease the fire workload. Some possibilities are:

1. The development of a low cost sprinkler system for residential properties. This could be the most important factor in saving life that could be provided. In the past one-hundred years only twelve people have died in sprinklered buildings ("Nations Cities Report").

2. A regionalized Fire Department, possibly County-wide.

3. Legislation to change Firefighters entrance age--eighteen to thirty years of age with mandatory retirement at age fifty-five for company members. This would provide a younger, better conditioned manpower, less susceptible to sick and injury leaves with fewer requirements for light duty assignments for older men.

4. Apprenticeship and Training Standards for the Firefighter.

I wish to extend my thanks to Mayor Kenneth A. Gibson, Members of the Municipal Council, to you, and to all the Officers and Members of the Fire Department whose efforts provided the community with fire protection during the year.

Respectfully submitted,

James P. O'Brien

FIRE PREVENTION DIVISION

Annual Report submitted by
Deputy Chiefs Louis Iannuzzi and James Morgan
for the year 1978

This report is a narrative of the general activities of the Fire Prevention Division for the year 1978. Statistical data on our specific activities will follow in separate detailed reports following the NFPA 901 Uniform Coding for Fire Protection System adaptable to the needs of reporting agencies. Evaluation of these statistics may help reduce the number of deaths and injuries from fire.

Training of the members of this command continued at a high level. With the adoption of the State Uniform Construction Code it is now mandatory that all officials and inspectors in an enforcing agency have the necessary license pursuant to these regulations. All members of this command in an enforcing capacity have submitted applications to the State Department of Community Affairs, and are awaiting their respective classification. In order for the Code to be enforced adequately and effectively, and the need for the inspector to have sufficient knowledge and competence to administer and interpret the Code, we have embarked on a program of training and education for the development of licensing requirements. With the continued cooperation of the Fire Director, Fire Chief, and the Chief of the Fire Planning Division we will continue with these programs so all inspectors are authorized to carry out field inspection and plan review work in residential and small commercial structures, industrial and large commercial structures, and high-rise and hazardous structures pursuant to regulations.

INSPECTIONS

Inspections by the field companies and our own inspection staff continued at a significantly high level with a correspondingly high workload from violations issued and subsequent follow-up inspections.

SENIOR CITIZENS

We have received and complied with many requests for lectures and films from senior citizen centers and have found this is a very fertile field for the promotion of Fire Safety.

FIRE PREVENTION DIVISION (2)

DAY CARE CENTERS

The rapid increase of Day Care Centers have to be given a high priority. Use of the State Code and the NFPA 101 Life Safety Code have placed these Centers under strict sets of guidelines. Fire safety response through the use of lectures, movies and visits by the neighborhood fire companies were directed to the very young and they were found to be very responsive.

SCHOOLS

The development of a modified alarm system initiated last year on a trial basis to reduce the needless responses for false alarms to the schools resulted in a reduction of 540 less responses this year.

FIRE PREVENTION WEEK

A Public Speaking Campaign involving members of the Department was conducted. All requests for speakers or films were honored. This year with the assistance of the School inspector we are scheduling Fire Prevention talks over the nine month period of the school calendar.

BUSINESS AND CITY AGENCIES

We have continued to work closely with all city and business heads, offering them whatever our offices and manpower can provide.

This command wishes to thank the Director's office, the Fire Chief's office and the other supportive groups in and outside the department for helping us succeed in our tasks during the past year.

FIRE PREVENTION

BUREAU OF COMBUSTIBLES

Annual Report submitted by
Philip Boyle, Chief Inspector
for the year 1978

It is with a deep sense of pride in the accomplishment of meaningful productivity that I herewith submit the Annual Report for the year 1978.

With the adoption of the State B.O.C.A. Building Code, and the B.O.C.A. Basic Fire Prevention Code the development of the City of Newark may now be accomplished in a more meaningful manner, as these codes adequately provide the necessary responsibilities of the Fire Inspector developed in conjunction with the responsibilities of the Building Official in order that their individual duties are more clearly delineated, and they may work as a team in providing reasonable safety in all buildings for the citizens of Newark.

The accompanying report of our activities, necessary for the purpose of ascertaining and causing to be corrected, any conditions liable to cause fire; contribute to the spread of fire; interfere with the fire fighting operations; endanger life or any violations of the provisions or intent of the Fire Prevention Code or any other Ordinance affecting Fire Safety is the most complete and detailed ever submitted.

IGNITION FACTOR

1. INCENDIARY TOTAL

11. Incendiary, not during civil disturb.-	2217
12. Incendiary, during civil disturbance -	0

2. SUSPICIOUS

21. Suspicious, not during civil disturb.-	563
22. Suspicious, during civil disturbance -	0

3. MISUSE OF HEAT OF IGNITION

31. Abandoned, discarded, cigarettes etc -	1092
32. Thawing -----	10
33. Falling asleep -----	110
34. Inadequate control of open fire -----	27
35. Cuttin, welding too close to -----	10
36. Children with, child playing -----	119
37. Drug, alcohol stupor, impairment -----	10

4. MISUSE OF MATERIAL IGNITED

41. Fuel spilled, released accidentally --	4
42. Improper fueling technique -----	3
43. Flammable liquid used to kindle fire -	67
44. Washing part, refinishing, painting --	3
45. Improper container -----	2
46. Combustible too close to heat -----	4
47. Improper storage -----	16
48. Children with, child playing -----	3

5. MECHANICAL FAILURE, MALFUNCTION TOTAL

51. Part failure, leak, break -----	12
52. Automatic control failure, delayed ign. --	483
53. Manual control failure -----	3
54. Short circuit -----	79
55. Other electrical failure -----	16
56. Lack of maintenance, worn out -----	9
57. Backfire (outside combustion chamber) -----	2

6. DESIGN, CONSTRUCTION, INSTALLATION DEFICIENCY

61. Design deficiency, catalytic converters --	2
62. Construction deficiency -----	3
63. Installed too close to combustibles -----	7
64. Other installation deficiency -----	454
65. Property too close to (exposure fire) -----	368

7. OPERATIONAL DEFICIENCY

71. Collision, overturn, knockdown -----	173
72. Accidentally turned on-not turned off -----	12
73. Unattended -----	443
74. Overloaded -----	12
75. Spontaneous heating -----	10
76. Improper startup-shutdown procedure -----	12

8. NATURAL CONDITION

81. High wind -----	3
82. Earthquake -----	0
83. High water, including floods -----	0
84. Lightning -----	2

9. OTHER IGNITION FACTOR

91. Animal -----	3
92. Rekindled from previous fire -----	72
99. Other ignition factor not classified -----	271

FIRES - AREA OF ORIGIN

	TOTAL
0. MEANS OF EGRESS

BUREAU OF INVESTIGATION

(ARSON SQUAD)

Annual Report submitted by
Battalion Chief Carl E. Stoffers
for the year 1978

The following is a report of the activities of the Arson Squad of the Newark Fire Department for the year of 1978.

The complete records of all investigations conducted by the Arson Squad, including photographs, evidence, statements, etc., are on file in the Arson Squad office and will be made available to interested parties where needed for deposition. Grand Jury presentation, criminal prosecution, civil suit, or for any purpose demanded.

Records of juvenile apprehensions, adult arrest, together with court disposition of these arrests, are on file in the Arson Squad Office, and will be made available to the proper authorities on request.

The Arson Squad has maintained a daily association with other bureaus of municipal government, such as the Newark Police Department's Youth Aid Bureau, Board of Education, Fire Prevention Bureau and the department of Health and Welfare.

Throughout the past year, we have continued our liaison with the New Jersey State Police, Essex County Prosecutor's Office, Federal Bureau of Investigation, New Jersey Motor Vehicle Department, New Jersey Youth and Family Services. These agencies have given us important assistance in many of our investigations and we express our gratitude for this help.

oo

BUREAU OF INVESTIGATION (2)

(ARSON SQUAD)

OTHER ACTIVITIES OF THE ARSON SQUAD FOR 1978

During the year 1978, the Arson Squad participated in the following:

1. The Arson Squad in conjunction with the New Jersey State Attorney General's Office and the Newark Police Intelligence unit have conducted an investigation into the illegal disposal of chemical waste. This investigation was started in 1976 but the bulk of the work was done in 1977-1978. Indictments and convictions were returned in 1978 and more are expected in 1979.
2. In June two members attended a two week course in Fire and Arson Investigation. This course was given by the National Fire Academy at John Jay College of Criminal Justice in New York City.
3. In November, the Newark Arson Squad, with the co-operation of the Essex County Police Academy, gave a seminar at the Academy's facilities in Cedar Grove. The week long session was attended by 28 Police Officers from various communities in Essex. The instruction was well received and we are looking forward to similar sessions involving not only police officers but fire fighters as well.

The Arson Squad has for the year 1978, as in past years, participated in the National Bomb Data Program sponsored by the United States Department of Justice, Federal Bureau of Investigation.

000

BUREAU OF INVESTIGATION (3)

(ARSON SQUAD)

The Essex County Prosecutor's Office has requested and received assistance from us on several occasions. On these occasions members of the Arson Squad have appeared as expert witnesses for the Prosecutor against arsonists and members of organized crime.

At this time I would like to thank the Newark Demolition team for the help and cooperation they so willingly give when they respond to the scene of a fire tragedy. The expert operation of heavy construction equipment and the knowledge they have of demolishing buildings certainly makes our job easier.

I wish to take this opportunity to thank Director Caufield, Chief O'Beirne, and all officers and Members of the Fire Department for all the cooperation and assistance given the Arson Squad during the year 1978.

We in the Arson Squad, feel that through this combined effort and understanding of each other's problems, we were able to be more successful than in previous years.

ooo

FIRE SIGNAL SYSTEM OPERATIONS

197^o ANNUAL REPORT

Robert L. Higgins, Chief

In compliance with the Rules and Regulations of the Newark Fire Department, I hereby submit this annual report.

1. Alarms transmitted	21,831
2. False Alarms received	5,954
3. Box tests supervised	4,325
4. Tests from private fire alarm companies supervised	3,000
5. Tests conducted of Airport fire alarm facilities	365
6. Telephone calls handled over Centrex system (appr.)	470,000
7. Radio calls handled (approx.)	230,000
8. Number of circuits tested	73,000
9. Miscellaneous reports prepared and distributed	9,300
10. Individuals and agencies dispatched to multiple alarms	3,570
11. Prepare and distribute daily Alarm Summary reports	365
12. Prepare orders for purchase of equipment and materials necessary for this Division.	
13. Verify invoices and bills related to all Fire Department telephones.	
14. Supervise installation of new equipment within the Central Office.	
15. Other job operations (bookkeeping, janitorial duties, etc.)	

1. Box Alarms Transmitted	Jan.	Feb.	March	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	TOTAL
A) Full Assignment Alarms	280	262	291	327	354	459	458	417	328	365	410	433	4384

FIRE SIGNAL SYSTEM
CONSTRUCTION & MAINTENANCE
ANNUAL REPORT
FOR THE YEAR 1978

The following is a report of the work performed by the Construction and Maintenance Division of the Fire Signal System, for the year 1978:

Subterranean ducts rodded and cleaned (feet of)	15,147
Pull wire installed in subterranean ducts (feet of)	16,775
Subterranean cable installed (feet of)	148,195
Single Line conductor installed (feet of)	11,544
Integrated messenger twin wire installed (ft. of conductor)	5,828
Twin Ruraline wire installed (feet of conductor)	13,424
Galvanized messenger wire installed (feet of)	1,510
Subterranean cable removed (feet of conductor)	143,045
Line wire removed (feet of)	22,124
Galvanized messenger wire removed (feet of)	1,510
Fire Alarm boxes installed (modified)	126
Fire Alarm boxes relocated	24
Fire Alarm boxes to shop for service/modification	130
Fire Alarm boxes inspected, tested and wound	253
Fire Alarm boxes tested and wound	5,121
Stanchions reset	25
Junction boxes installed	18
Junction boxes replaced	26
Stanchions/Junction boxes rehabilitated	138
Stanchions/junction boxes removed	14
Pole line construction released only	42
Pole line hardware/crossarms replaced only	326
Pole line transfers completed	58
Line wire protective coverings installed	7
Trees trimmed	532
Ground rods buried	76
Fire house batteries serviced (sets of)	360
Fire alarm box-pole painting	68
Field inspections (hours of)	272
Field facility patrol (miles of)	251
Training sessions (hours of)	48
Housekeeping/vehicle maintenance (hours of)	51
Corrective functions performed	6,174
Major job operations completed	4,569
Minor job operations completed	5,097
Pre-Construction conferences attended	12
Surveys for private fire alarms systems conducted	9
Central office maintenance (hours of)	122
Portable radio in shop repairs	38

PLANNING & RESEARCH DIVISION

Annual Report submitted by
Stanley Kossup, Deputy Chief
for the year 1978

During 1978 the Planning and Research Division engaged in a variety of activities that provided assistance in the administration and operation of the Newark Fire Department. These areas of activities included the following:

Capital Budget Preparation and Monitoring

Projects currently being monitored are:

1. Rehabilitation of Engine Co. No. 12 - Truck No. 5. (Estimated date of completion, Spring 1979).
2. Reconstruction of apparatus floor at Engine Co. No. 8. (Estimated date of completion, March 14, 1979).
3. Reconstruction of roofs of the following Companies:

Engine Co. No. 4 - Truck No. 2
Engine Co. No. 29 - Truck No. 10
Engine Co. No. 15 - Truck No. 7
Engine Co. No. 21 and 26 - Truck No. 12
Engine Co. No. 6
Engine Co. No. 14
Engine Co. No. 19
Engine Co. 7 - Truck No. 3
Engine Co. No. 18 - Truck No. 9
Tactical Unit No. 1 Annex
Engine Co. No. 5
Engine Co. No. 9
Engine Co. No. 17
Special Services
Fire Alarm - Maintenance and Construction
(Estimated date of completion of the entire project - Fall 1979).

Operating Budget

This Division maintained a liaison between the Fire Director's Office and the Budget Director's Office, in the preparation of the 1978 Operating Budget. With the assistance of all Fire Department Division Chiefs through the utilization of their projected activities, Planning prepared, coordinated and presented the Fire Department's Goals and Objectives.

Formulation of Proposals and Justification for the Purchase of Vehicles and Equipment

Funds have been encumbered; vehicle and equipment ordered, with expected delivery in early 1979.

American La France rear mounted 100 ft. aerial ladder truck,
Survivair Lightweight mask equipment.

PLANNING & RESEARCH DIVISION (2)

A replacement schedule for apparatus, through 1996, has been developed, prepared and presented.

In 1978 a Civil Service examination for Firefighters was called. To expedite the written and physical sections, Planning made the arrangements for the written examination to be held at Essex County College and the physical section to be held at the gymnasium of the New Jersey Institute of Technology. With the cooperation of Brenda Veltri, Personnel Director, this Division developed a new and complete medical examination which was administered to all candidates to ensure their fitness for fire duty. Various state and local officials cooperated in making this involved program a success; they should be complimented on their dedication.

Director Caufield, in his continuing concern for the health and welfare of all firefighters, ordered that a program be developed to provide tetanus inoculations for all members. Planning was responsible for the purchase of the vaccine, the scheduling of the program and maintaining records of all inoculations administered. The Department of Health and Welfare, the Fire Department Surgeons and the Training Center Staff of the Newark Fire Department, gave their full cooperation whenever requested and the program was successfully completed.

A major function of the Planning and Research Division is the control of Fire Department's Sick Leave Records. The Illness/Injury Reporting System, implemented in July of 1977, has proven a success in data collection and through the efforts of the Data Processing Division updated information is provided on a weekly basis showing complete Sick Leave Records of all personnel. This has enabled the Fire Department to have better control of Sick Leave procedures. Further, a complete and updated list of all Compensation Awards granted for the past fifteen (15) years is maintained.

A system of charts has been developed to allow the Administration to have tighter control of on-duty personnel and to insure adequate Company manning. This system provides, on a daily basis, the number of personnel on duty, taking into consideration Sick Leaves, vacations and personnel days granted. Together with the compilation and comparison of data from the Daily Exception Reports, this procedure has proven to be an administrative success.

For the first time in the history of the Newark Fire Department a yearbook on the Newark Fire Department was developed. The Planning and Research Division completed this project in 1978 with the distribution of over one thousand (1,000) copies to interested department members and outside parties. From pictures taken for the yearbook, identification cards were created by this Division and distributed to all members.

All arrangements for schools, conventions and seminars attended by Fire Department members and the necessary documentation for reimbursement is handled by this Division. Records of the amounts of gasoline, diesel fuel, oil and gas and electricity used throughout the department is maintained on a monthly basis.

PLANNING & RESEARCH DIVISION (3)

The Planning and Research Division has been designated as the City Hall First-Aid Station. We respond to all calls for First-Aid and maintain equipment for resuscitation. The Planning Division provides a blood pressure monitoring program available to all City Hall employees. Records are maintained of all First-Aid and blood pressure services rendered.

The Planning and Research Division has been designated by the Director as the contact for all required Affirmative Action activities. A liaison has been established with the Division of Human Rights and quarterly reports regarding Fire Department personnel, such as, transfers, promotions, training activities, terminations and hirings, are submitted.

With the cooperation of the Law Department, this Division has recently developed a much needed "Smoke Detector" ordinance for the City of Newark.

Planning has responded to all requests for information relative to fire data from other agencies, fire departments, cities and citizens. Requests for information have come from Australia, Canada and England and in all cases full cooperation was provided in supplying the necessary data.

Planning and Research, because of the dedication and competence of its assigned members, has provided the administrative impact necessary to properly respond to all activities and duties delegated by the Fire Director and Fire Chief.

It is my feeling that we have had a productive and successful year, and I and my staff wish to thank the Director, Fire Chief and all department members who assisted us in accomplishing our tasks during the year 1978.

000

SPECIAL SERVICE AND SUPPLY COMPANY

Annual Report submitted by
Arthur J. Schmidt, Deputy Chief
for the year 1978

The Special Service & Supply Division operated on an around the clock basis throughout the year, and continued to supply the necessary services of repair and supply to all Fire Department units, and to provide various other services to city departments and agencies, and the community in general. These services were provided by our personnel, some of whom are assigned to tours, and some on a daytime basis only. Planned programs and policies were adhered to, and new programs and procedures have been formulated for the forthcoming year, in an attempt to achieve goals in the most expeditious manner. Accomplishments and services of the various sections in this Division during the past year are as follows:

DELIVERY AND PICK-UP SERVICE. Deliveries and pick-ups were made on a morning, afternoon and evening basis, on a routine basis. Items of an emergency nature were handled immediately, on a 24-hour-a-day basis. Items handled were such things as housekeeping, supplies, tools, equipment, extinguishers, oxygen, air cylinders, masks, furniture, lockers, rock salt, ladders, hose and other supplies and equipment that require storage and transportation.

Special Service responded to multiple alarm fires and special calls, with fuel and apparatus, air tanks, salvage covers, and when requested specifically, the Hi-Ex Foam Generator, the Smoke Ejectors, and foam concentrates.

Special Service is also charged with the pick up at fire scenes of salvage covers, the cleaning and maintenance of same, the redistribution of these salvage covers to fire companies throughout the Fire Department.

Special Service is also available, and responds to cordon off buildings deemed to be in dangerous condition, posting these buildings, indicating that a dangerous condition exists at the site. This is done by special request of Fire Chiefs at the incident site.

Fire apparatus requiring repairs or adjustments were picked up and delivered to various locations. Replacements for these apparatus were delivered to the affected fire companies by Special Service personnel.

MESSENGER SERVICE: This service is provided by Special Service personnel. The messenger carried out his prescribed duties daily, calling on Headquarters, as well as all Chiefs' quarters. This is literally the Department's mail system. He also performed related duties.

MASK REPAIR DEPARTMENT: The mask department was charged with the repair and maintenance of all types of masks used by the Fire Department. During the past year this department bench-checked over two thousand masks. The Scott Air Masks, utilized as "loaners", were also checked and maintained, as well as all air tanks. Over ten thousand such tanks were filled by this unit during the past year.

Special Service & Supply (2)

AIR PURIFICATION UNIT. A total of 10,000 air tanks were filled during the past year, with over 200 hours of pumping time recorded by this unit. Provision is made to comply with both the state and federal health laws, air samples being tested monthly throughout the year.

CANVAS SHOP. Canvas items such as turntable covers, chain saw sheaths, electrical generator covers, turret nozzle covers, hose and bed covers, foam can covers, bags for utilitarian use, etc., were made in this department, as well as the maintenance of these type items. Window shades were also repaired and fabricated in this department.

STOCK ROOM. All tools, equipment, devices, and supplies, (except those ordered through Fire Headquarters and the Hose Shop), were ordered, received, checked, recorded, stored, and distributed as needed to the fire units through the delivery service.

Auto and truck equipment were handled by this unit during the past calendar year.

Supply room personnel repaired porto-lites, desk lamps, extension cords, K-12 saws, generators, etc. They also made special belts and straps, tested salvage covers, and made the necessary arrangements with the carpenter shop to repair and replace hook and axe handles. This group also made the necessary arrangements for the construction and maintenance of such items as skid load panels, hose and decking, apparatus windshields and canopies, and the arrangements with the Department of Public Works for the maintenance and repair of all Fire Department buildings.

This department is also charged with the repair of such articles as portable pumps, explosimeters, and the maintenance and supply of saw blades.

APPARATUS MAINTENANCE. All fire apparatus in service, and all spare apparatus were tested by this department in accordance with accepted procedures. Apparatus repairs were scheduled by this department, and records of such repairs, recorded and filed. Brackets and accessories on new apparatus were installed by these personnel. Arrangements were made with outside jobbers for necessary apparatus repairs and modifications. The scheduling and maintenance of the department preventative program was administered by this unit.

Specifications for the purchase of new apparatus were also drawn up by this unit in conjunction with the Fire Chief. This activity, and the acceptance procedure for new vehicles often required meetings with the agents and representatives of manufacturers concerning acceptance tests, malfunctions, and deviations from specifications.

This unit certified drivers and tillerman, visited firehouses specifically to conduct drills and to explain the operation and equipment, and the maintenance of same.

HOSE SHOP. The hose shop kept all fire companies properly supplied with hose. All hose in service was tested, and over-age and defective hose was removed from service. Damaged hose was repaired when possible, as were damaged nozzles, valves, adapters, hose fittings, brackets, and other miscellaneous equipment.

Special Service & Supply (3)

GENERAL. Various size metal ladders were received, stored, and placed in service when necessary. All ladders on all apparatus are now maintained and repaired by Special Service personnel, and this program has enabled this item to be cut substantially in the Fire Department budget.

The program for inventory and test control of gas pressure cylinders in use throughout the department, continued through the year. These cylinders include air tanks, oxygen tanks, CO₂ tanks, dry powder and dry chemical tanks, water extinguishers, and kero test cylinders. All such cylinders are tested every five years, on a continuing basis, from the date of manufacture.

Special Service is also charged with receiving and forwarding complaints to the appropriate city agency or jobber, of Fire Department building repairs.

Community assistance activities included the following during the past year:

Pumping out cellars and basements, and community owned swimming pools. Provided and operated portable electric generators, lamps, cables, at emergency situations, and routinely on request.

Responded with Hi-Ex Foam Generator, and Smoke Ejector, on request.

Provided extinguishers for protection at various functions, and for demonstration purposes.

Picked up and delivered salvage covers used by fire companies, washed, dried, stored, maintained same.

Each sub-division of Special Service maintained records and file system; submitted reports consistent with duties and activities; engaged in necessary clerical work consistent with objectives; correspondence and telephone communications essential with operations and duties, and performed housekeeping duties necessary to maintain quarters in a clean and presentable condition.

Special Service & Supply Company

Performance Report 1978

Number of Alarms answered	85
Number of pickups and deliveries made	11,735
Gasoline distributed at fires	120 gals.
Motor oil distributed at fires	10 quarts
Diesel oil distributed at fires	113 gals.
Electric generator used	3
Floodlight cable used	175 ft.
Number of lights used	4
Window shades made and repaired	76
Cellars pumped out	92
Hours spent pumping out cellars	406 hours
Portolites repaired	218
Portolite batteries distributed to companies	768
Liquid foam distributed to companies	80 gals.
Oxygen cylinders refilled	235
Scott & M.S.A. Air Cylinders refilled	11,713
15 lb. C.O.2 extinguishers refilled	334
Masks repaired	2,070
Canvas Covers for bags, boxes, deck, etc., made and repaired	193
Tanks repaired	862
Dri-powder extinguishers refilled	155
Smoke ejector on special calls	-
Hi-Ex expansion foam unit on special calls	-
Ladders repaired (number of)	221
Ladders repaired (feet)	6,291 ft.
Movement of apparatus	644
Salvage Covers picked up, washed and delivered	347

000

APPARATUS DIVISION

Annual Report for 1978 submitted by
Acting Supv. of Apparatus
George Iuzzolino

The following is the Annual Report on Vehicles received, decommissioned,, assigned, maintained, etc.

The total number of vehicles assigned to the Newark Fire Department is:

93 Vehicles - Pumpers, Aerial Trucks,
Vans, Station Wagons,
Pick-up Trucks

1 Fireboat

94 Total

The following are vehicles that were placed in service during the year 1978:

Reg. 61 - 1978 Chevy Station Wagon - Assigned to 1st Deputy Chief
Reg. 64 - " " " " " 4th Batt. Chief
Reg. 65 - " " " " " 5th Batt. Chief
Reg. 74 - 1978 Chevy Crew Cab Pick-up - Assigned to Special Service
Reg. 75 - 1978 Chevy Van - " " " "

The following vehicles were decommissioned:

Reg. 58 - 1970 Checker Station Wagon
Reg. 71 - 1971 Chevy pick-up truck
Reg. 72 - 1971 Chevy pick-up truck

Reg. 101 - 1972 Plymouth Station Wagon
Reg. 108 - 1970 Checker Station Wagon
Reg. 119 - 1972 Chevy Sedan

During the year 1978 a total of 672 department vehicles received downtime (out of service for a short period of time to receive a checkup or repair).

Preventive maintenance was performed on a total of 324 vehicles.

Plans have been proposed for the year of 1979 for a new building to be erected at Empire Street. This would result in a more efficient operation in the handling of downtime repairs. In addition, spare vehicles would be housed in this building. This would reduce the time it takes to place spare apparatus in service when needed.

APPARATUS DIVISION

Annual Report for 1973 submitted by
Supervisor of Apparatus
Daniel J. Tauriello

The listed activities were conducted by this office during the year 1973.

1. Tested all pumper in compliance with N.F.P.A. standards.
2. Tested and inspected all aerial and portable ladders.
3. Certified pump operators, aerial ladder operators and drivers.
4. Lectured and gave demonstrations on fire ground hydraulics.
5. Made frequent inspections of apparatus and equipment.
6. Supervised and assisted fire companies in the take over of new or spare apparatus.
7. Performed liaison work between the repair shop and the Fire Department.
8. Supervised the record keeping of all repairs made on fire apparatus.
9. Assisted in various classes, lectures and demonstrations conducted at the Training Academy.
10. Assisted in the moving of apparatus for repairs, change-overs, and drills.

000

SPECIAL SERVICE AND SUPPLY COMPANY

Hose Division

Annual Report for 1978
submitted by
Captain Paul Duleba

The following is an inventory of the amount of fire hose in service, new hose in reserve, and used hose on hand, and the amount of brass work done as of the year ending December 31, 1978:

	<u>Hose Inventory</u>	<u>Total Available</u>

1½"	439 - 50 ft. lengths	21,950 ft.
Booster Hose	135 - 50 ft. lengths	<u>6,750 ft.</u>
		<u>74,800 ft.</u>

Number of valves, adapters, nozzles, equipment and miscellaneous articles repaired or installed during the year totaled 354.

oo

TRAINING DIVISION

Annual Report for 1973
submitted by
Deputy Chief Edward M. Wall

The Division of Training is responsible for all phases of Fire Department Training. This responsibility includes training of Recruit Firefighters, Inservice Fire Service Personnel and Industrial Fire Brigades. The realization of these responsibilities is accomplished through course material presented at the Training Center, at remote locations, and training accomplished at the battalion and company level. The training goals and objectives established by this command are compatible with the behavioral objectives established by the National Fire Protection Association Standard 1001 and programs of instruction postulated by the International Fire Service Training Association.

The following major training programs were completed under the direct supervision of Training Division personnel:

Pump Simulator Training	2/13 - 5/15
Seventh Probationary Class	6/19 - 6/23
Eighth Probationary Class	7/11 - 7/20
Ninth Probationary Class	8/21 - 8/25
Tenth Probationary Class	10/2 - 10/27
First Special Probationary Class	10/9 - 10/27
Second Special Probationary Class	10/30 - 11/17
Defensive Driver Course	10/16 - 10/19
Defensive Driver Course	11/6 - 11/9

The following specialized training was offered to specific groups:

Police TAC Unit - Rappelling
Explorer Scouts - Rappelling
Elizabeth Fire Department - Air Mask Use and Rappelling
Montclair Fire Department - Air Mask Use and Ground Ladders
Newark Fire Arson Unit - Use of Probeye
Union County Fire School - Self Contained Breathing Apparatus
Essex County Police Academy - Concepts of Fire
Sun Oil Company, Newark - Special Foam Operations
Millburn Fire Department Staff Officers - Pump Simulator
St. Benedict Prep Personnel - Flammable Liquid Fires

A very important part of this Division's responsibilities is the training of Industrial Fire Brigades and security forces of other governmental agencies. Training in first aid firefighting and related subjects was offered to the following agencies:

Essex County Jail Security Force
Delta Airlines
Penick Corporation
Social Security Administration - Newark Office

TRAINING DIVISION (2)

New Jersey Bell Telephone Co. - William Street Unit
Saint Michael's Hospital
YMCA - YWCA - Newark
Columbus Hospital
Western Electric Corporation - Newark Office
Sun Oil Corporation - Newark Plant
Mutual Benefit Life Insurance Company
J. Armitage & Company

The Training Center Staff supervised the on-going evaluation of various items of firefighting turnout gear, in particular turnout coats, helmets, gloves and reflective markings. Several new tools were evaluated, one of which proved to be successful and was purchased: the water powered drill. This unit will be carried by the Rescue Company.

Our research into a better self-contained breathing apparatus realized fruition with the decision by Director Caufield to purchase 144 of the most advanced mask available to the Fire Service today. With the acquisition of the Survivair Mark I self-contained breathing apparatus the Newark Firefighter will be equipped with the most technically advanced type of low profile pressure demand, lightweight mask on the market. The benefit of this mask will be to improve the firefighter's initial attack capabilities and to reduce the weight by ten pounds that the individual firefighter must carry while working at a fire.

The Commanding Officer of the Division continued to serve as Chairman of the Fire Accident Prevention Board and as a member of the City Wide Accident Review Board under Mr. Elton Hill. In line with these responsibilities Safety Tip bulletins were issued periodically to all units within the department regarding safe driving practices. A summary of the activities of the Accident Prevention Board has been reported under separate cover.

The Training Center continued to provide transportation of relief crews at fire operations. Transport is available between 0700 hours through 1900 hours daily.

The Commanding Officer of the Division served on various committees during the year. We worked closely with the Federal Department of Labor and Essex County Vocational Education Department in setting up Firefighters Apprenticeship Programs. The Commanding Officer of the Training Division was elected to the Board of Directors of the Fire Science and Technology Educators Section of the National Fire Protection Association for a three year term.

The duties of the Safety Officer and Water Officer were merged in 1978. Battalion Chief Fred Boehringer has assumed these duties and will report under separate cover. The Supervisor of Apparatus service tested all pumbers and inspected all aerial apparatus. His report is forwarded as a separate entity.

The Commanding Officer of the Training Center and the Staff wish to extend our thanks and gratitude to Director John P. Caufield and Fire Chief James P. O'Beirne for their wholehearted and active support of our activities during 1978. Without this enthusiastic support it would have been impossible to achieve its goals.

ACCIDENT PREVENTION COMMITTEE

Annual Report for 1973
submitted by
Edward M. Wall, Deputy Chief

In 1973 the Fire Department experienced 47 accidents and two incidents. This is an increase over the 33 accidents we had in 1977; however, 12 of the 47 accidents were very minor in nature and were caused by the poor driving conditions during the heavy snows in January and February.

The Fire Department Accident Prevention Board held four meetings during the year and I attended monthly meetings of the City Wide Accident Review Board. We reviewed 35 accidents and one incident, three accidents and one incident were carried over to 1979. Of the 35 accidents reviewed five were found to be preventable and seven were preventable with an explanation. All drivers involved in preventable, or preventable with explanation, received retraining under the direction of the Supervisor of Apparatus.

The most common accidents were "Type I", Our Vehicle Hit While Parked (6), "Type B", Our Vehicle Hit in Rear by Other Vehicle (5), "Type K". Our Vehicle Hit Other Vehicle Because of Sideswipe or Squeezeby (5). None of our drivers experienced more than one preventable, or preventable with explanation type accident during 1978.

One case was referred to the City Wide Board: action was deferred at the request of the Law Department.

TRAINING DIVISION

SAFETY OFFICER

Deputy Chief James E. Morgan

The following is a list of activities that the Safety Officer performed for the year 1978:

The Safety Officer served as Chairman of the Safety Committee, also as a member of the Accident Prevention Board, and is the Executive Officer of the Training Center.

Forty Safety Committee meetings and four meetings of the Accident Prevention Board were held throughout the year.

The Safety Officer attended a number of safety meetings at various cities throughout the country.

The following duties were performed by the Safety Officer:

- A. Ordered and distributed First Aid supplies.
- B. Assisted in training fire companies at the Training Academy.
- C. Attended weekly meetings with Chief Wall to evaluate the training program and injuries to personnel.
- D. Attended a number of meetings with Director Caulfield, Fire Chief James P. O'Beirne and Deputy Chief Edward Wall.
- E. Assisted in training a number of industrial fire brigades.
- F. Worked with various manufacturers in testing and evaluating numerous tools, equipment and turn-out gear.
- G. Held first aid classes for various civic organizations throughout the city.
- H. Attended a number of meetings with the head of the New York City Fire Safety Division.

TRAINING DIVISION

Annual Report for 1978 submitted by
Battalion Chief Fred Boehringer
Water Officer

I was appointed Water Officer in October of 1978. During my time as Water Officer, I either performed or assisted in the following activities.

1. Processed hydrant repair cards.
2. Responded to multiple alarms of fire between the hours of 0300 - 1600 hours.
3. Attended meetings with Thomas Ewing, Superintendent of the Water Department, relative to hydrants.
4. Investigated and did follow-up work relative to hydrant complaints.
5. Gave demonstrations on Cardiac-Pulmonary Resuscitation to Senior Citizens groups.
6. Acted as liaison between the Fire Department and Water Department and submitted verbal and written reports.

oo

COMMUNITY RELATIONS DIVISION

Annual Report submitted by
Deputy Chief Robert F. Marron
for the year 1978

During the year of 1978, the Community Relations Division (Headquarters 20) continued to be involved in various projects which strengthened the rapport between the public and the Fire Department.

The Christmas toy drive slipped to a little less than 6,000 units which were picked up, sorted, repaired, stored, and distributed to various groups who took care of needy persons. Every attempt was made to get the Christmas toys and gifts to those who were the neediest.

The demand for showing films on the streets during the summer months, in schools during the school year, to business groups, P.T.A.'s, Block Associations, and other civic groups, continued at a lively pace. Requests for speakers were honored on all occasions.

The Fire Department Community Relations members participated in Career Days sponsored by schools in the City of Newark including Essex County College. Community Relations also continued to work with the Mayor's Affirmative Action Committee.

Numerous meetings during the course of the year were held by the Citizens Advisory Committee who sought out ways to support the Fire Department in the performance of their duties and in rendering services to the citizens of Newark. The committee operates autonomously and members of the Fire Department attend as resource aides.

Explorer Post No. 20, Scouts of America of the Newark Fire Department, was reorganized in the Fall of 1978 with active members numbering above fifteen. Other posts are to be formed within the department. Most members of the Explorers Post are from the senior high schools of the city.

In 1978, the Community Relations Division continued to work closely with the Red Cross in assisting fire victims. The Newark Disaster Coordinating Committee continued to assist disaster victims through its members who are best suited to provide the essential needs or services. The Community Relations Division maintained contact on a daily basis with the Salvation Army, Red Cross, Essex County Welfare, and Civil Defense to assist fire victims in obtaining the necessities of life.

Prior to the hot days of May and June of 1978, many meetings were held in the Business Administration Offices about the city's hydrant problem. All the facets of the hydrant problem were discussed in detail and the conclusion made was to have people assigned to shut off illegally flowing hydrants. Sprinkler caps would be issued to people who requested them and arrests would be made to those people who used hydrants illegally or/and vandalized hydrants.

COMMUNITY RELATIONS DIVISION (2)

In 1978, the preparation program for the recruitment of fire fighters continued in the form of classes being conducted at the following locations:

<u>Day</u>	<u>Time</u>	<u>Location</u>
Monday	7:30 - 9:30 P.M.	Sharpe James' Little City Hall
Tuesday	7:30 - 9:30 P.M.	Unified Vailsburg
Wednesday	7:30 - 9:30 P.M.	Training Center
Thursday	7:30 - 9:30 P.M.	F.O.C.U.S.
Friday	7:30 - 9:30 P.M.	Jesse Allen Center
Saturday	10:00 -12:00 P.M.	Vince Lombardi Center

Besides the above preparation classes for the written examination, a mock up was made of the physical performance part of the examination. Many sessions were scheduled at the Training Academy for candidates to familiarize themselves with the various performance standards they would be tested on.

The past year, the Community Relations Division continued to assist the Cerebral Palsy Telethon, and the Arthritic Telethon by supplying assistance in their logistic problems and assisted in setting up and controlling the telephone volunteers.

The North Ward Educational and Cultural Center (NWECC) again worked closely with the Fire Department on many occasions. Especially outstanding is the picnic for retarded children held on the Center's grounds.

Another organization that we have continued to work closely with has been the International Youth Organization (I.Y.O.).

Community Relations has been active in all aspects of Civil Defense and many other city departments and agencies.

1978 Statistics - Community Relations Division

Number of meetings attended -----	181
Number of persons attended meetings -----	1,780
Number of fires responded to -----	1,029
Number of fire victims assisted -----	2,753
Number of movies shown in schools -----	69
Number of movies shown in streets -----	43
Movies shown at various indoor locations -----	34
Number of persons viewing films -----	4,700
Christmas toys distributed -----	5,900
Special assignments -----	452

COMMUNITY RELATIONS DIVISION (3)

Civil Defense Auxiliary Fire Service

During 1978, Mr. Edward Sager was sworn in as Chief of the Fire Auxiliaries. Thirty-eight (38) new members came into the Auxiliary bringing the membership to 235.

Director Caufield commended LeRoy Smith, a Deputy Chief in the Fire Auxiliary.

Members of the Fire Auxiliary and the staff have attended meetings, drills, and attended Civil Service seminars.

Members of the Fire Auxiliary have been documenting more of their hours of duty to the city and have reported these to the Civil Defense Office.

A city evaluation team from the Business Administration Office reviewed the records, programs, and training of the Auxiliary Fire Service.

DATA PROCESSING UNIT

Annual Report for 1978

submitted by

Gerrit L. DeVries
Data Processing Coordinator

The Data Processing Unit of the Planning and Research Division has completed various computer applications, which include making the following Printouts for Department use:

1. List of inspections and updated conditions of all hydrants in the city.
2. Overtime scheduling and reports on a weekly basis.
3. Personnel history and listings, as needed.
4. Weekly sick leave reporting system.
5. Monthly vacant building report.

The initial state of establishing a list of dangerous chemicals and the buildings in which they are stored is under way.

Members of the Data Processing Unit have performed all the activities and duties as required by the Director and the Fire Chief of the Department.

MEDICAL DIVISION

Annual Report submitted by
Edwin L. Ciccone, M. D.
Fire Department Surgeon
for the year 1978

As Fire Surgeon, I performed my duties in accordance with the Rules and Regulations of the Fire Department and at all times have fulfilled my duties.

My associate, Dr. Carl E. Maffeo, and I are on call twenty-four hours a day throughout the year. We are never off duty or on leave at the same time. I have given prompt attention to all reported illnesses and injuries of our fellow workers, including non-firefighters, Auxiliary Reserves, and other personnel within our jurisdiction.

I granted sick leaves to members as warranted. Regular additional visits and examinations were made to the sick and injured, hospitalized or otherwise, until they were, in my opinion, physically able to return to their respective duties. Light duty assignments were given when feasible, with the approval of Director John P. Caufield.

I received and returned all telephone calls on a twenty-four basis, seven days a week, including all holidays. There were 1,639 sick leaves and 705 injury leaves. On Tuesdays at 0300 hours, men who were ordered to report, were examined for evaluation, light duty, special duty, etc.

Visits were made to the fire houses for inspection purposes, on an emergency basis or otherwise, when requested by any member of the Fire Department, and all referral cases of city employees, were examined when necessary. All new appointees, fire fighters and non-fire fighters, and reports for same were submitted. There were 71 new men and 34 men retired in 1978.

Weekly reports were prepared and forwarded to Assistant Corporation Counsel Donald I. Dvorin, Esquire, with reference to all men injured in line of duty, as to diagnosis, prognosis, and treatment. Conferences were held at any requested time, regarding the injured personnel.

I am grateful to the officers and fire fighters, our Rescue Squad, the Fire Alarm Operators, the Bell and Siren Squad, and the Ironbound Ambulance Squad for their kind assistance.

I wish to thank Director John P. Caufield, Fire Chief James P. O'Beirne, Deputy Chief Stanley Kossup, Administrative Officer William T. Whalen, and their entire staff, and our good Chaplains, Rev. Norton J. Raught, and Rev. Clarence Bleakney, for their courtesy, cooperation, and spiritual aid.

000

ANNUAL REPORT
FOR THE YEAR 1978
submitted by
Rev. Horton Raught
Catholic Chaplain

The following is a report of my activities as Chaplain of the Newark Fire Department for the year 1978.

Responded to 114 fires of which 103 were multiple alarms.' When necessary, I responded to the hospital from the fire scene.

I visited the various hospitals in the area to see members who were sick or injured on fire duty; I also visited members of their families.

I attended all swearing-in ceremonies of Fire Department personnel, as well as all promotion ceremonies.

Attended wakes for members of the Fire Department or members of their families. Participated in the funeral services of members of the Department, both active or retired.

Was available for and participated in conferences with Department members and members of their families.

In conjunction with Rev. Clarence Bleakney, I conducted the Annual Memorial Service for deceased firefighters of the Newark Fire Department, held at St. Rose of Lima Church.

Attended fire prevention demonstrations and other affairs pertaining to Fire Department activities, such as events held at the Fire Department Historical Association, the Bell & Siren Club, and the 200 Club.

I wish to express my deep and sincere gratitude to Director John P. Caufield, Fire Chief James P. O'Beirne, and to all the officers and firefighters for the friendship, courtesy and cooperation they have shown me.

oo

ANNUAL REPORT
of the Protestant Chaplain
Rev. Clarence Bleakney
for the year 1978

I conducted the Annual Memorial Service in St. Rose of Lima Church with a large attendance.

Together with Rev. Horton Raught, the Catholic Chaplain, I attended funerals for departed firefighters.

As is my practice, I called on firefighters who were hospitalized.

I attended all swearing-in ceremonies of new firefighters, and promotional ceremonies of officers.

I wish to express my thanks to Fire Director John P. Caufield, and to all of his staff, for their many kindnesses extended to me throughout the year.

oo

ANNUAL REPORT

submitted by the Jewish Chaplain
Rabbi Horace L. Zemel
for the year 1978

I wish to report to you that through 1978, as Chaplain of the Fire Department, to the best of my ability, I have answered fire calls when summoned, participated in public functions, attended the sick and dying, and in general lent myself in full capacity as clergyman over all those to whom I minister in whatever contingency my services were called.

The making of this report gives me, once again, the opportunity of letting you know that I am not unmindful of the many courtesies extended to me in the performing of the duties of my office for which I am extremely grateful.

May I wish you, and through you, all those in the Department, a Year marked by Peace in the world, order in our government, health in the home, and success in every worthwhile effort.

ooo

PUBLIC RELATIONS DIVISION

Annual Report submitted by
Lonnie Tucker
for the year 1978

The following is herewith respectfully submitted as the Annual Report of the Fire Department's Public Relations Division for the year 1978.

Our division has continued to keep the public informed of various events in fire prevention through the use of radio, television, newspapers, and weekly reports within the communities.

For the coming year, a new plan will go into effect to have speakers visit each ward of the City, speaking to the various groups. The great emphasis on smoke detectors and the program on fire prevention through education has already motivated citizens to call upon the Fire Department for more information and demonstrations of preventive techniques.

The message of fire prevention and the Fire Director's smoke detector plan has been brought to the attention of other agencies who now will join the fire department in its efforts to bring fire prevention knowledge to the people.

In the year 1978, the Public Relations Division worked with other city, state and federal agencies which provided assistance for fire victims.

As the liaison man in the Fire Department I responded to 207 fires.

The Public Relations Division is in charge of issuing informative releases to the news media upon request.

I wish to extend my most sincere thanks to the officers and members of the Fire Department for their cooperation.

000

THE BELL AND SIREN CLUB, INC.

Annual Report
For the Year 1978

Services Rendered

Fire Responses	133
Cups of Coffee	9,653
Cups of Tea	284
Cups of Hot Chocolate	538
Cups of Bouillon	442
Cups of Water	211
*Cups of Orange Drink	7,668
